

Stream gauges (by region)

- Cordillera Blanca, Peru (historical, 1950s–1970s)
- Western / southern Andes, Peru
- Altiplano, northern Chile (DGA)
- Altiplano focus: Puente Isla Cabanillas (Peru)

- Catchment (Andean-GC)
- River / lake
- Peru boundary
- Other international boundary

Elevation (m a.s.l.)

0 2 000 4 000 6 000

tint × multidirectional hillshade

Data: gauges and catchments from Andean-GC (CC BY 4.0; SENAMHI Peru, DGA Chile); relief from Copernicus GLO-90 DEM (© DLR e.V./Airbus, provided under COPERNICUS by the EU and ESA), averaged to ~830 m (insets ~170–280 m); boundaries, lakes and rivers from Natural Earth. Lambert conformal conic projection (standard parallels 9°S and 17°S).
